

tara-foam® Bio

Plant-based biopolymer

Sustainable, 100% biodegradable and high performance

100% Biodegradable

- Bio-based
- Compost HOME
- Compost INDUSTRIAL
- Compost MARINE
- Compost SOIL
- 100% Compostable

High performance

- Cushioning as good as EPO (EPP, EPE)
- Compression as good as EPO
- Isolation better than EPP
- Heat resistance better than EPP
- Density between 65 and 85 g/L
- Self-extinguishing as in FMVSS 302
- Vapor and oxygen barrier
- Stable under normal conditions
- Molding in normal EPP machines

Sustainable
